

# Which Health & Safety concerns are keeping you up at night?

beep®

Beep4Business

## Concern 1:

“Are our communication channels robust enough to handle a sudden evacuation or lockdown scenario?”

Solution: **Robust Communication Channels**

*Reach your employees through SMS alerts, even in areas with limited connectivity, ensuring effective communication during emergencies.*

## Concern 2:

“What’s the plan for ensuring our employees receive immediate safety instructions during a chemical spill?”

Solution: **Immediate Safety Instructions**

*Send immediate safety instructions to employees’ mobiles using text alerts during incidents like chemical spills.*

## Concern 3:

“How can we guarantee effective communication for remote workers during a severe weather event or natural disaster?”

Solution: **Remote Worker Communication**

*Facilitate communication with remote workers via text alerts, providing them with critical information during severe weather events or natural disasters.*

## Concern 4:

“Do we have a secure and reliable way to reach our employees in the event of a cybersecurity breach or data breach?”

Solution: **Cybersecurity Breach**

*Use a messaging platform that offers secure communication for cybersecurity breaches, allowing you to communicate essential details to the right individuals quickly and privately.*

## Concern 5:

“Are we equipped to manage the influx of information requests from concerned employees during a public health crisis?”

Solution: **Public Health Crisis**

*Use text alerts to help you manage communication with employees during public health crises, ensuring that you can provide them with real-time updates and guidance.*

## Concern 6:

“What strategies are in place to ensure clear and consistent messaging during an active shooter situation?”

Solution: **Active Shooter Situations**

*Send clear and concise instructions to employees during active shooter situations via text alerts while also providing a means for employees to respond and communicate their status using a 2-way platform.*

## Concern 7:

“Are we prepared to communicate with regulatory authorities and the media following a workplace incident?”

Solution: **Communication with Authorities and Media**

*Use a text alert and email platform to coordinate and streamline communication with regulatory authorities and the media following a workplace incident.*

## Concern 8:

**“Do we have a foolproof method for disseminating safety procedures to new employees and contractors?”**

Solution: **Onboarding and Training**

*Ensure that new employees and contractors receive essential safety procedures and training materials through text alerts.*

## Concern 9:

**“How can we maintain employee morale and provide emotional support through effective communication during a crisis?”**

Solution: **Employee Morale and Support**

*Use a platform that can help you maintain employee morale and provide emotional support through personalised, two-way text messaging during crises.*

## Concern 10:

**“What’s the backup plan in case our primary communication methods fail during a critical health and safety incident?”**

Solution: **Backup Communication Methods**

*Use a communication platform that can be accessed remotely and offers redundancy and backup options, ensuring that you have multiple communication methods in place in case of primary channel failure.*

## Concern 11:

**“Are we adequately trained and prepared to address the unique communication challenges posed by a pandemic or infectious disease outbreak?”**

Solution: **Pandemic Communication**

*Use a communication platform that facilitates 2-way text alerts during pandemics, enabling you to provide employees with critical health and safety information and updates directly to their mobile devices.*

## Concern 12:

**“What systems are in place to monitor the well-being of employees and receive real-time feedback on our communication efforts during a crisis?”**

Solution: **Monitoring Employee Well-Being**

*Use a platform that offers a means to monitor employee well-being and receive real-time feedback during a crisis, helping you address their needs effectively.*

## Concern 13:

**“What’s our plan for managing misinformation and rumours that may circulate among employees during a crisis?”**

Solution: **Misinformation Control**

*A two-way text messaging platform will allow you to quickly respond to and correct misinformation, ensuring that accurate information reaches your employees with SMS open rates at around 98%.*

## Concern 14:

**“Are we adequately prepared for communicating with employees working in different geographic locations during a crisis?”**

Solution: **Geographical Reach**

*To coordinate with employees across geographic locations, ensure that you can create multiple groups in different locations that can be reached via text alerts so everyone receives crucial information.*

## Concern 15:

**“How do we coordinate with first responders and emergency services to ensure effective communication during a disaster or accident?”**

Solution: **First Responder Coordination**

*Set-up all your first responders and emergency services into targeted groups to enable you to coordinate using text alerts.*
